

Contractors Pollution Liability from Chamber Insurance

Why Chamber and AIG?

Contractor's Pollution Liability insurance underwritten and placed by Chamber Insurance Agency Services on behalf of AIG insurers matches AIG's market leadership and 35+ years in the Environmental insurance industry, with Chamber's dedication to service and specialty product knowledge.

Chamber has a team of underwriters that specialize in CPL insurance, providing the highest level of service with a personal touch that you can't get from an automated underwriting system.

CPL insurance from Chamber is available to insureds in the U. S.

Has one of your contractors lost a job or been removed from a project because they don't have pollution insurance? While it may seem like only environmental contractors can incur a pollution loss, general construction and trade contractors have just as much exposure to environmental perils, such as:

- Utility contractors hit an underground pipeline
- Interior construction contractors mistakenly disturb asbestos
- Excavation contractors inadvertently direct unwanted storm water runoff to an adjacent property

These are just a few of the environmental exposures that a contractor could face and Contractors Pollution Liability (CPL) insurance is specifically designed to address a wide range of service-providing contractors and environmental insurance needs.
